Portfolio: amudha9797.github.io/Portfolio/ | github: https://github.com/amudha9797

CAREER OBJECTIVE

Motivated Electronics and Communication Engineering student with strong interests in Embedded Systems, VLSI, IoT, Electronics Design, and Communication Systems. Skilled in microcontrollers, digital and analog electronics, and programming, seeking an entry-level opportunity to apply technical knowledge, gain practical experience, solve real-world engineering challenges, and contribute to organizational growth.

EDUCATION

B.E– Electronics and Communication Engineering | Adhiparasakthi Engineering College | 2023–2027 CGPA: 8.32 till 6th semester
Higher Secondary Education (HSC) | St. Philomenal Girls Higher Secondary School | 2023 Percentage: 86.42%

TECHNICAL SKILLS

IT & Development Skills: HTML, CSS, Basic Web Development, Git, GitHub, VS Code
AI Tools: ChatGPT, GitHub Copilot, Google Gemini, Claude, Cursor
Embedded Systems: Arduino, ESP8266, ESP32
VLSI & Core Electronics: Digital Electronics, Analog Electronics, Communication Systems, Microprocessors, Microcontrollers
Tools & Software: MATLAB, Arduino IDE, Proteus, MS Office, Google Workspace
Professional Skills: Problem-Solving, Analytical Thinking, Communication, Teamwork, Adaptability, Time Management

PROJECTS

1. Multilingual Cooperative Governance & Legal Assistance Chatbot
Technologies: Python, NLP, RAG, AI/ML, Streamlit
Developed a multilingual AI chatbot supporting 15+ Indian languages for cooperative laws, government schemes and grievance redressal.
Integrated voice-based interaction and legal information assistance.
GitHub Repository | Live Demo

2. AI-Assisted Early Detection System for Osteoarthritis (OA)
Technologies: Python, Streamlit, AI/ML, SQLite
Developed an AI-assisted screening application using patient data, clinical questionnaires and gait analysis.
Implemented risk scoring, patient registration and multilingual voice feedback.
GitHub Repository | Live Application

3. Memory Interface in VLSI Systems using Verilog HDL with EDAC
Technologies: Verilog HDL, VLSI, RTL Design, EDAC
Designed a Verilog-based memory interface for reliable read/write operations.
Integrated error detection and correction logic and performed functional simulation.
GitHub Repository

INTERNSHIP

1. VLSI Internship Training | August 2026 – 1 Month
- Gained practical knowledge of VLSI design, digital design principles, and semiconductor concepts.

2. Web Technologies Intern – ASKAN Technologies Pvt. Ltd. | June 2025 – 1 Month
- Gained hands-on exposure to web technologies, website development, and practical implementation.

3. Digital Marketing & Web Development Intern | June–July 2025
- Learned digital marketing strategies, web development, and online business technologies.

CERTIFICATIONS

- Introduction to Industry 4.0 & Industrial Internet of Things – NPTEL, IIT Kharagpur | Score: 76%
- Communication Skills – Passport to Earning (P2E), UNICEF | Score: 100%
- Bang Job Ready – Passport to Earning (P2E), UNICEF | Score: 75%
- Embedded for Beginners – NIELIT Calicut
- Core Java Programming – Value-Added Programme, Adhiparasakthi Engineering College
- Art of Communication Workshop – Adhiparasakthi Engineering College

ACHIEVEMENTS

- Participated in Smart India Hackathon (SIH) 2026 with Team NexGen Minds.
  Developed project concepts in AI-assisted healthcare screening and multilingual cooperative legal assistance.
- NPTEL certification in Industry 4.0 and Industrial IoT with 76%.

LANGUAGES

- Tamil – Native
- English – Professional Working Proficiency
